Act now so you can continue to improve your quality outcomes and prepare for expected Pay for Performance changes in the coming year.

The Center for Medicare and Medicaid (CMS) recently revised the Quality Outcome Risk Adjustment Model used to compare providers on the Home Care Compare website. This program will review the recent changes in the 2008 Risk Adjustment Model, and discuss specific OASIS elements that impact critical agency quality outcomes. Join RBC Limited to hear what your peers are doing to ensure leadership and staff are updated on these critical quality outcome risk adjustment model changes. The Program will:

- Identify critical revisions to the Home Health Risk Adjustment Model for Quality Outcomes;
- Clarify how these changes may affect your Home Care Compare scores;
- Utilize tips and tools to clearly identify OASIS elements that impact accurate agency quality outcomes; and
- Discuss strategies to enhance accuracy on focused OASIS MO items that will now impact your quality outcomes.

NATIONAL EXPERT SPEAKER: Patricia W. Tulloch, RN, B.S.N., M.S.N., HCS-D is a senior consultant with RBC Limited Healthcare & Management Consultants

WHO SHOULD ATTEND: Agency leadership, Quality Improvement, Educators, clinical and support staff.

PROGRAM TAKE AWAY: Education & Audit Tools to focus on your weakest quality outcomes.

RECOMMENDED MATERIALS: Participant may want to access and reference their current Home Care Compare Scores.
